## The Schüco Product Configurator – experience your dream home before it becomes a reality

With the Schüco Product Configurator, you can plan every detail of the system units for your home and experience them visually first.

In your own home nothing is left to chance. To make sure your windows, doors and sliding units also live up to your expectations, with the Schüco Product Configurator you can plan them to meet your exact requirements. **Size, design and security – every detail can be tailored to your needs.** The best thing about it is that once all the data has been entered, you can experience a realistic representation of your planned Schüco units. So you can be sure that the system solutions fit perfectly with your home.

## Precisely planned, thoroughly checked – so you can be on the safe side

When planning high-quality system solutions, it's all about precision and an effective interplay between each component. Aspects such as security, energy and comfort also play an important part. With the Schüco Product Configurator you can be sure that all components are in perfect harmony and meet your exact requirements.

### PHOTO-REALISTIC REPRESENTATION

The Schüco Product Configurator creates a photo-realistic and detailed preview so you know what your planned system solutions will look like.

### RELIABLE PLANNING

A technical check is run in the background for each configuration step, which monitors whether the system solutions can be easily constructed later on.

### CONSTANT OVERVIEW OF COSTS

An exact price is already being calculated during the configuration. So you have an overview of the costs at all times and receive a non-binding quotation directly afterwards.
